How to PREVENT HENS FROM EAT-NO THEIR EGGS .- The country gentleng their eggs. It is to fill an egg with solution of pepper, and put the egg back in the nest. A Danbury man has tried this and says it works like charm. He put a pretty goose dose of pepper in the egg, and placed it in the nest of the criminal. Pretty soon the nen came around and took hold. It was a brindle animal with long legs, and somewhat conceited. It dipped in its ill and inhaled the delicacy. Then it came out doors. It didn't gallop out, we don't mean, but it came out to look at the scenery, and see if it was going to rain. Its mouth was wide open, and the feathers on top of its head stood straight up. FOR THE CURE OF INFLAMMATORY DISEASES.

Dr. Trask was engaged for twenty years in a course of experiments upon the medical properties and power of vegetables, separate and combined. At the age of seventy years he succeeded in presenting to the world, as the result of his experiments, a combination of Vegetable extracts, the power of which in removing diseases is unequaled in the annals of Medicine. Certain, it is, that the remarkable and apprecedented success which has attended its application in the cure of diseases, stamps it at once as the greatest discovery of the age, and calls for a trial and close investigation of its roperties.
